## *How to use your Biblemarker: Spring Belt Holder & Staybar*

Fig. 1

Fig. 2

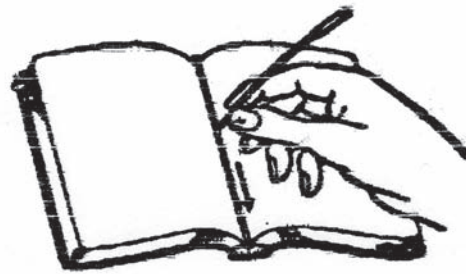

Fig. 3

- Fig. 1 illustrates Spring Belt Holder placed around leaves of book with staybar in center.
- Fig. 2 and Fig. 3 illustrate method of inserting units.  
HOOK TOP END OF UNIT FIRST WHEN PLACING.  
REMOVE BOTTOM END FIRST WHEN TRANSFERRING.

Transfer only one unit at a time to its proper place. Closing book slightly will raise the belt permitting hook to pass under more freely. Do Not remove more than one unit at a time.

Units distributed throughout the book hold belt in place. Units not used in the lesson should be transferred to those parts of the book left vacant after marking the lesson. ALL units should remain in the book at all times.

Use number tips to open at citation by either lifting them with the fingers or holding down with the thumb while book is thrown open.
